

Sanctuary of the Open Heart 13 Moon Oracle Ordination Field of Agreement

We are here to co-create a deeply grounded, sacred container generating a resonance with safety and wakefulness to allow for whatever is held in the unconscious to be embraced, transmuted and integrated for the benefit of all, thus becoming vessels of “Empty Presence” inviting the Divine Mother to manifest whatever is needed to bring the collective into an expanded field of coherence and wholeness.

The path of the 13 moons is exhilarating, freeing, loving, gentle, fierce, and challenging, therefore, it is imperative that you are prepared to go the distance, with the circle, for the full term of 13 Moon cycle.

Please take all the time you need to consider the following field of agreement requisites:

Emptiness

The real is empty and the empty is real. Emptiness is needed for collective work. Emptiness is needed to create the alchemical container and to hold resonance of the archetypal field. Static and interference is caused by an inability to stay fully present in the moment. The primary focus of the 13 Moon path is to learn how to maintain and remain in a state of *Empty Presence*.

Going the Distance

We are here to GO THE DISTANCE. As soul journeyers we gather to co-create an alchemical, archetypal container for transmutation, rapid acceleration in frequency and growth. We are co-creating a network of soul alliances, a soul tapestry of awareness forming a higher harmonic pattern. We are co-creating a priesthood, a bond which exists beyond space and time.

Speaking from Higher Self

In archetypal work that which is spoken, from a state of full conscious awareness, is DONE in that very moment. The emotional, mental and physical bodies may take some time to “catch up” to that which has been completed on the etheric plane. Although, from time to time the Shadow material held in the emotional body will be activated, this is NOT the focal point of the path and will be handled very differently than in a conventional or therapeutic model, thus the importance of a resonant container.

Silence

Speaking from the *Womb of Silence*. The energy emanating from Silence rather than the mind is clear, coherent, fluid, harmonic and heart centered. This is the level of communication that we will focus on, on this path. When speaking from the Womb of Silence we are transmuting frequency and accelerating growth for ourselves and the collective.

Collective Collaboration

We are one organism as human beings, what is done for the one is done for the collective, transformation for all. It is done, it is done, it is done in the name of the one.

Witnessing

We are here, in circle, to enter the BIG Story of our mythic, archetypal selves. It is from this position that the cycle of transmutation is experienced and integration is completed. This is the path of the Higher Self, the Archetypal self not that of the ego mind. Therefore we are not here to fix, change, inform, explain, advise or recapitulate the known.

Self Authority

There is no higher authority than YOU. If you feel impulsed to do something, say something, share something, sing something or play something please do it! We are a circle of co-creators and welcome all forms of expression in the one heart. We, as a collective, are the power and the magic of the circle. If you are not in alignment with taking a certain vow, repeating a statement don't. If you do not wish to participate in a dance or any other activity, don't. If you do not wish to partake in a particular sacrament or libation, simply touch it to your third eye in honoring of its intention and it is done in the name of the One. If you need to leave the circle from time to time, please bow to the center and move in silence and grace.

Rules

In the Unity of the Goddess, there is no right and wrong. There are no rules except for the soul direction of the moment...

Accountability

Your High Self holds you accountable for all agreements committed to in front of the circle's sacred witnesses. Therefore, be laser like and clear in what you speak and claim. Remember, we are not just speaking words or creating affirmations, we are making archetypal agreements with the High Self. To support your process please write down, in your journal, anything you are archetypally charged with on the path of the 13 Moons.

Sanctity

This work is profound, vulnerable soul work. It is essential that it is completely understood that this work is SACROSANCT and that no ones names or information shared outside of this circle.
