

Sanctuary of the Open Heart Drug and Illegal Activity Policy

The Sanctuary of the Open Heart does not endorse, support or participate in any way the use of illicit drugs or other illegal activity. No program, circle, ceremony, or other event related in any way to the Sanctuary of the Open Heart shall be associated with the use of illicit drugs or illegal activities.

To the extent that nudity at “**public**” events is illegal, the Sanctuary will not endorse, support or participate in such activities.

Sexual Activity Policy

Although the Sanctuary is in favor of pleasure and ecstasy in everyone’s life in general, the Sanctuary’s mission is most gracefully supported when sexual activity at Sanctuary sponsored events is discouraged. This is due in large part to the transformative nature of the “work” which promotes trust and requires a cohesive and supportive community. Many human beings carry deep woundedness in this area that requires a sex-free container to heal this area. Additionally, sexual activity adds a dimension of intensity that has been known to create the experience of distrust and sometimes divisiveness in groups.
